Professional Summary

Full-Stack Developer with experience in HTML, CSS, JavaScript, TypeScript and SQL databases using SQLAlchemy. I have knowledge in authentication with Python and Flask, as well as version control with Git and deployment processes. I am seeking my first opportunity as an intern or junior developer to apply my skills and learn in a dynamic environment.

Technical Skills

- HTML and CSS, JavaScript, TypeScript, React, TailwindCSS, Bootstrap, Python, SQL, Flask, SQLAlchemy, Git, Github

Projects

Full-stack site for a bakery - Development of a full-stack site for a bakery, with a responsive interface using HTML, CSS, TailwindCSS and JavaScript. Backend implemented in Python with Flask and SQLAlchemy, including authentication features for users and administrators, as well as advanced filters to optimize navigation and improve user experience.

- Repository on Github: <https://github.com/pedroguedes9/finalproject-CS50>

- Demonstration video: https://youtu.be/P7Lh9NpUjJA?si=bvEG1LM6JU_nketi

- Deploy: pedroguedes.pythonanywhere.com

Personal Portfolio

- Development of a personal portfolio with an interface inspired by desktop/macOS and mobile/iOS, using React, TypeScript, TailwindCSS and Motion. The project includes app navigation, interactive windows, project gallery, language switch, desktop and mobile adaptation, as well as deploy on Vercel with a custom domain.

- Repository on Github: <https://github.com/pedroguedes9/portfolio>

- Deploy: pedroguedes.dev.br

Supplementary Courses

CS50's Introduction to Computer Science Harvard - 2026

- The course teaches algorithmic thinking, problem solving and fundamentals of programming through languages like C, Python, SQL, JavaScript, HTML and CSS

Advanced React

B7web - 2025

- The course teaches React from basic to advanced.

Languages

English: Advanced
